

## FAMILY DEVELOPMENT PROGRAM GENERAL REQUIRMENTS

Clients seeking assistance under this program must:

- Must have proof of an emergency that occurred within the last 30 days.
- Must have social security cards for everyone in the household.
- Must have picture I.D. for the head of household.
- Must have current proof of income (within the last 30 days).

There are also other eligibility requirements that vary, depending on the service being requested and the funding source. Every client requesting services must come in and meet with a Specialist for assessment. The only exception to this is if you are requesting a reduced fee form for DMV to obtain an I.D. card. Please note that services in FDP change constantly and are not always available. It is best to call first to see if the service you are requesting is even available.
